The cause of the collision was a misunderstanding between the freight conductor and his engineer.

## KILLED BY AN OFFICER.

### Rich Yother Defies the Officers and Dies with His Boots on.

News reached McKinney Thursday evening that Deputy Alma Wilson had killed a man near Princeton which caused quite a ripple of excitement on our streets. The report proved well founded and following are the facts in the case together with circumstances leading up to the killing as nearly as could be gleaned from an eye-witness by The Democrat. About daylight Tuesday morning of last week it was discovered that a bale of cotton had been stolen from the gin yard at Princeton the previous night. Investigation showed that it had been rolled for several rods from the gin, across the railroad and into the public road leading south to Culleoka and there loaded into a wagon. Three pieces of timber, or cleets, which evidently had been broken from the wagon bed in loading the cotton, were picked up on the spot and preserved to identify the wagon should it be found. Immediately pursuit was given and two suspicious men in a covered wagon, who had camped in about a half mile of Princeton that night, were traced to Copeville and there lost sight of.

In the evening word was sent to McKinney for more officers, who went out and searched all night, but failed to find a clue. Wednesday passed and still no clue. Thursday morning about 9 o'clock it was learned that the suspicious wagon which had been traced to Copeville Monday previous had returned and was at the home of J. V. Yother, about 4 miles southeast of Princeton. This clue supported by the fact that the bale of cotton stolen belonged to Yother, but was held in the gin yard on a mortgage at once fixed suspicion on the Yothers. Knowing that some of the Yother boys bore the reputation of being dangerous men Deputy Sheriff Alma Wilson of Princeton with J. B. Jones, T. J. Kelly and R. A. Bishop, whom he deputized to assist him, repaired to old man Yother's residence after dispatching a message to the McKinney officers stating that he believed he had located the guilty parties. About noon Thursday Deputy Wilson and posse surrounded the house, sending one of their number in. Three young men and several women were found seated at the dinner table. The men came out in the yard and were questioned about the wagon. They declared the wagon had not been off the place for a week, whereupon one of the officers stepped to the wagon standing in the yard and placed the broken pieces of timber, before mentioned, into their places exactly fitting the same. J. V. Yother, the father, not being present was asked for to which the boys answered that he was nearby hunting in the woods. The boys were informed that they might consider themselves under arrest on suspicion and that they would have to be searched to which the eldest prisoner demurred and called on Officer Wilson to show his authority. As that officer could not produce the warrents then, he left Kelly and Bishop to guard the boys while he and Jones proceeded to find the father who was found nearby without much difficulty and accompanied him up to the house. While on the way Wilson gleaned from conversation with the father that the eldest of his sons then being guarded was named Rich, a fact hereunto not known to the officers. When Wilson, Jones and the father reached the house the old man took a seat on top of the steps leading from the house to the barnyard with his double barrel shot gun across his lap while Wilson walked up to the son and asked him if his name was Rich Yother, to which Rich answered "B— G—— you have guessed it that time stranger." The officer then proceeded to read a warrant which had been in the possession of the Collin county officers for several years. Wilson again informed him that he would have to submit to being searched to which Yother again refused to accede at the muzzle of the officers' guns and began backing away from them and nervously twitching his hands by his side as if trying to get them inside his bosom. Officer Wilson jumped over the fence into the lane and caught Yother by one arm just as Bishop laid hold on the other. The desperate man shuffled both officers aside in an instant as though they were play toys and continued to back off along down the side of the fence. Wilson again headed him off and plead with him to surrender or else he would be forced to shoot. Facing Officer Wilson, Yother assumed a more defiant attitude at the same time making a more determined effort to get his hand into his bosom, whereupon Wilson fired, the contents of his single barrel shot gun entering the mouth and passing out back of the neck and the reckless Rich Yother tumbled over in the instant embrace of death before the eyes of his parents and brothers showing to the very moment of death the most daring defiance to the laws of his country.

A younger brother in the meantime had grabbed the shot gun from his father which he promptly gave up on demand of the officers.

When killed Yother was in his shirt sleeves. He wore a thick woolen shirt and carried a large 45 calibre revolver in his waistband under this woolen shirt. A large knife was also taken from the dead man's person by officers.

Deputy Alma Wilson, who fired the fatal shot, is a son of the late Geo. A. Wilson and is a merchant at Princeton. He is one of the best citizens of the county and no one more than he deplores the circumstances leading up to the horrible affair that all believe to have left him this only alternative.

## AN OLD CITIZEN GONE.

### Henry S. Moore, an Honored Citizen Enters the Silent Tomb.

Friday evening at 5 o'clock November 8, 1895, Henry S. Moore died at his home six miles north of McKinney, after a lingering illness. The deceased was born July 4, 1827, in Robertson county, Tennessee.

He ranks among the early settlers of Collin county, having come to Texas in the spring of 1858, accompanied bp J. P. A. Wallace. In that year Mr. Moore and Mr. Wallace walked from Jefferson to Gainesville.

Mr. Moore was a millwright and worked industriously at that trade a few years when he went to farming. His life in Texas was spent on his farm.

It was the good fortune of the writer to meet him about fifteen years ago and to claim him as a friend ever since. We feel it our duty to refer to the character of the deceased though we acknowledge that we are not able to find words to express our admiration for the same. Like the strong and towering oak he stood between the two extremes of society—he sought not for fame and wealth, yet he was active to earn his living by the sweat of his own face—always careful to give value received. He was honest in thought, word, and deed. That alone he considered the duty of life. Religious and political deceit and treachery he rebuked by humbly refusing to endorse. He would have had more friends if his acquaintance had been extended. All who knew him will endorse every word here written. He was a close student of astronomy and we have on several occasions stood by him in the silent night and watched him peer through his telescope and listened to his words of wisdom as he patiently explained the nature and movements of the planets and stars. It was his delight to roam amid the fields of investigation It can well be said of him that if he ever swerved from justice it was on the side of mercy. He has bravely stepped into the mysterious beyond with the robes of innocence, truth and honor to shield him from would-be cruel judgement. If all humanity would emulate his virtues the world would be transformed into a haven of rest and trust.

The last remains of the honored dead was laid in the silent tomb, in the presence of a large number of friends, in the family grave yard near the home of the deceased in the pasture of his brother, C. B. Moore. Let us cherish his memory.

## An Ungratetul Client.

In conversation with an old resident of Collin county, recently, a Democrat representative was told the following incident in which the late ex-Gov. J. W. Throckmorton figured as a victim.

Many years ago when McKinney was not as it is to-day and Texas was in her infancy as a state, an alleged horse thief engaged this eminent young criminal barrister to defend him.

In those days Throckmorton lived northeast of McKinney a few miles and rode in each day horseback, hitching his horse near the rude court house. The trial came. Throckmorton, by skill and tactics more conducive to the freedom of his client than subservient to the ends of justice, secured an acquittal and advised the acquitted to skip. The obedient client did skip—but skipped astride his benefactor's horse, hitched conveniently near, and from that day to this the ungrateful wretch nor Throckmorton's steed have never been seen in these "diggin's."

## Autumn Days.

Have you ever noticed that nature reserves her most brilliant colors for the season of death? Leaves change their green to a glory of color as they drift to their graves, the landscape is resplendent and never is nature in such dazzling array as in these autumn weeks that come before the grey death of winter. This is nature's high carnival preceding her lenten season. Nature grows more and more satisfying as the years are added to life and experience, and we learn to turn first to her for solace in time of anxiety and sorrow. Mammon answers are dusty responses to the soul's questioning, but the silence of nature is eloquent. Held close to her great heart we do not long for human companionship and earth recedes while heaven draws near. There is in nature just as much or as little as the soul can see in her, and in order to see the soul must have been trained for it. There is something so triumphant about this putting on of the brightest and most gorgeous array in the season of death, something so touching in the gray dullness that settles over shrubs and moss growing in neglected places, while the trees in their gay dress appear here and there and everywhere like a dash of glory, a kind of hallelujah chorus, that I think the sermons in the stones and trees of this season peculiarly soul-stirring and inspiring. My soul is baptised anew in beauty, my heart sings for gladness in these changes of nature which deepen as, I think, nothing else does our feeling for and faith in divine land, that God is Lord and love.—Lois Catesby in Home and Farm.

## A TERRIFFIC EXPLOSION.

### Boilers Blow at Detroit Resulting in Many Deaths.

DETROIT, Nov. 8.—The catastrophe caused Wednesday by the explosion of the boilers in The Journal office, carrying down a portion of the building and burying the inmates in the ruins, is far more disastrous to human life than at first supposed.

It was believed at the time that only 30 or 35 persons were in the building, but 31 dead bodies have been rescued besides 19 have been taken out injured, some of whom are fatally hurt.

Two bodies were recovered early this morning being Adolph Schruber, a bookbinder and John Gordon, an electrotyper.

A large force of men are still digging for other bodies which are believed to be in the debris, for they are reported to have been in the building and are missing.

Most of the bodies recovered are a pitiable sight, all semblance of humans being mashed and burned out. The bodies are identified with the greatest difficulty, nearly all being recognized by relatives and friends by parts of their clothing. Three are yet to be identified.

The scenes around the wreck will never be forgotten by those who witnessed them. Mothers, fathers, wives, husbands, sisters, brothers and other relatives congregated and watched with sorrow for their loved ones buried in the wreck.

The sight was one that made strong men weep, and a number had to leave the wreck, as it was too much for them to stand.

Early in the afternoon the bodies of Kittie Leonard, Rosa Morgan, John Britenbercher, an unknown man, Jennie Neibauer and Bertha Weldbush were recovered swelling the list of the dead to 25.

There are yet 20 missing which will probably swell the list of the dead to 40 or 45.

Developments demonstrate conclusively that negligence in the care of the boilers was the cause of the catastrophe. Official inspectors and competent engineers examined portions of the wrecked boilers and pronounced the cause to be low water, causing a superheated condition of the flues, which were exploded by the injection of cold water.

The engineer's action is strongly condemned. The engineer of The Free Press building states that he had previously warned Thompson against leaving his boilers without having an assistant to watch them. Some of the occupants of the building give similar testimony.

Thompson insists that he saw both boilers 10 minutes before the explosion and that they contained plenty of water and 65 pounds pressure of steam.

The portion of the building still standing has been officially examined and found to be out of plumb, wrenched by the shock and otherwise defective.

### THIRTY-THREE DEAD BODIES.

**The Number Killed by the Boiler Explosion at Detroit.**

DETROIT, Nov. 9.—The body of Lizzie Wildbusch was uncovered yesterday morning, pinned down by tons of machinery across the chest. Her face was exposed and was but slightly disfigured. Several hours were required to remove the debris so that the body could be taken out.

This makes 32 dead bodies taken from the wreck.

The walls of the adjoining wrecked portion of The Journal building have been braced and the work of digging in the ruins is progressing rapidly and with a greater degree of security.

Another body, that of Charles Land, has been recovered.

Several persons are still missing, but it is expected that all the bodies will soon be recovered.

A massmeeting has been called to take steps for the relief of the families of the dead.

**Thirty-Seven Victims Found.**

DETROIT, Nov. 11.—The dead body of James B. Thomas, a machinist, was taken from the ruins of The Journal building late Friday. This was the thirty-seventh body recovered, and according to the list of missing, was the last body in the wreck.

Thomas M. Thompson, engineer of the building, has been arrested and is at Grace hospital under custody.

## W. A. Turner Decision.

W. A. Turner vs. State—From Collin county. Appellant was convicted of embezzlement and sentenced for a term of five years. The only question discussed in the opinion is the indictment which contains three counts. Held, that the first count is bad in not negativing the consent of Wilson, the person from whom defendant received the money. The second and third counts should have negatived the consent of Wells-Fargo express company for whom the defendant was acting as agent in carrying said money. Held further, that the proof does not show that defendant was carrier. The express company was the carrier and defendant was its agent, and the indictment should have contained count charging embezzlement of the property of the express company. Judgment reversed. Opinion by Henderson, J.

### Not on the Run.

The poppies are on the run in Texas.—Weatherford Republic.

We democrats have been saying that ever since the populist party came into existence, yet the strength of the party continues to increase. Let us deceive ourselves no longer. The populists in Texas are not on the run, as our Weatherford contemporary claims; they are on the aggressive and it is not going to be a walk-over for the democratic party next year. It is a fact that the populist vote is increasing—been increasing for years, and out of every ten recruits to that party in our state nine of them are from the democratic party. It is not a good policy to under-estimate the strength of an enemy or to lead ourselves to believe they are running from us when they are in truth running at us.

Judge Thomas L. Nugent, to borrow a phrase of our friend Col. Dick Wynne, is the logical condidate of the populists for governor, and he will be nominated. He is a strong man, a man of brain and has the respect of all the people in Texas who know him. Twice he has been before the people for governor and during the two campaigns no man has been found who could say truthfully one word against his honesty, his integrity or ability, even democrats admit this—and it is what makes him so dangerous to the democratic party. To say the most of it he is a gubernatorial possibility if not a probability. The democratic party in our state is split, and it looks as if the free silver faction and the good money faction propose to keep up their fight to the confusion of the party and the delight of the populists.

An evidence that the populists themselves believe they are in sight of victory is the fact that they are almost unanimous in their determination to fuse with no party or part of a party. They are already organizing for the campaign of 1896, while we democrats are busily engaged in organizing against each other. The populists are never-tiring campaigners and when once beaten they show the only remnant of democracy left them by plunging right into the fight again. They never let up, never acknowledge any defeat except a temporary one and always actually revel in confidence of ultimate success and it is that confidence that should warn Texas Democrats, beware!

The populists are not on the run; they are a dangerous foe that the Texas democracy cannot afford to despise. They are here in our midst, too thick for political comfort, and it looks as if they are going to stay with us until November, 1896, at any rate.—Ft. Worth Daily Mail, (Dem.)

People imagine that it is agreat honor to be elected to congress or the senate, or to be made president. This is a mistake. All that the people can do is to put a man in a place where he can earn honor, Honor is not alms; it must be earned. Even an infinite God could not place in an unworthy hand the jewel of honor; it must be won. It comes from inside; not from place or power; not from majorities or crowns. This gem called honor con be won and worn in the valleys as well as on the mountain tops; in obscurity as well as in the light and blaze of fame.—Ingersoll.

## FREE SILVER CONFERENCE

### Senators and Congressmen in Ala., Will Consider the Situation.

Birmingham, Ala., Nov. 7.—A conference will be held to-morrow between United States Senators Morgan and Pugh and free silver members of the Alabama congressional delegation to determine whether or not they will continue the prosecution of the free silver campaign inaugurated inside the democratic party in the state.

Leading democrats are seriously considering the advisability of stopping all discussion inside the party of currency and turn their attention to re-uniting the democratic party for the coming contest.

The above is a copy of a dispatch that appeared in all the leading daily journals Nov. 8. It clearly shows the deceit, cowardice and treachery of the average G. O. P. leader. For the sake of party and the spoils these leaders will sacrifice every principle of reform. Voters! will you be deceived longer? If not, join a party of honesty, to say the least. These leaders talked tariff to you before the last presidential election. Since then they have whooped you up on the silver question until the recent state elections. Now they are contemplating a new course, in order to h-a-r-m-o-n-i-z-e with the goldbug elements. Consistency is a jewel, but not worn by these deceitful and treacherous politicians.

Tom Perkins says that Grover Cleveland is now worth about $6,000,000, whereas, when he first assumed the presidential chair he was worth only the pitiful sum of $100,000. Out of a salary of $50,000 per year it takes a pretty good financier to lay by $6,000,000 and pay all expenses in six years. But Grover is the chief mogul of the party of which Tom is the high muckitymuck in these parts. Who said "Birds of a feather flock together."

### Watson and Black.

In the Tenth Georgia district Watson and Black have had three straight tilts before the people. Each time Watson has been elected but counted out by the democrats. The official vote in each contest was as follows: 1892, Black 17,772, Watson 12,330; Black's majority 5,442. 1894, Black 20,903, Watson 13,530. Black's majority 7,373 1895, Black 10,293, Watson 8,637; Black's majority 1,556.

Each time Watson carried nine out of the eleven counties in the district. The two counties carried by black were Hancock and Richmond. The vote of Richmond county is an interesting study—10,776 for Black in 1892, 13,722 in 1894, and 5,504 1895—the latter being the only time the official figures were not made to show more votes for Black than the district contained. The city of Augusta each time has controlled the district for tho democrats. This shows the great power of the commercial centres when controlled by corruption and fraud. Watson will contest the last election.—Current Voice.

JUDGE T. L. Nugent and Hon. Jerome C. Kearby both deny the statement that they either wrote or spoke to any populist legislator to influence them to vote against the anti-prize fight bill. Kearby says that he will give $1000 to any man who will show a line or prove a word that he has used to influence a populist vote in the legislature. The McKinney Gazette will please take notice, as it had something to say about these populist "bosses" who tried to change the populist vote on the above named bill. Great is the truth crusher!

No man who hires out at wages on the farm ought to vote the populist ticket, because that party's platform declares in favor of eight hours constituting a day's labor for all laborers, except in agricultural and domestic affairs, which means, of course, the hired farm hand and the servant girl.—McKinney Gazette.

According to the above logic the Gazette rashly condemns its own party. "That party's (populist) platform declares in favor of eight hours constituting a day's labor for all laborers except in agricultural and domestic affairs" therefore "no man who hires out at wages on the farm ought to vote the populist ticket." The democratic platform never declared in favor of eight hours constituting a day's labor for the farm hand or other kind of laborer therefore according to the Gazette's logic "No man who hires out at wages on the farm ought to vote the democratic ticket." Yea! more, following the Gazette's line of reasoning, not only the farm hand but every other kind of laborers ought not to vote the democratic ticket because the democratic party discriminates against the whole labor fraternity.

### To Our Patrons.

You will now find THE DEMOCRAT cosily located upstair in front of J. P. Dowell's. Our latch string still dangles on the outside. Come up and visit us.

### Grand Stand Play.

Another point: There have been murdered in Texas since the regular session of the legislature as many people as were killed in any one of the great battles of the war. The rewards offered for capture of criminals have been insignificant, and no hint as to a special session has been heard. Compare this with an expense of $25,000 to remedy gubernatorial and legislative blunders and how does it strike you?

Now, the fact of the business is this The governor and attorney-general were simply making a grand-stand political play. There has been no sincerity in the movement from start to finish.

Texas Farmer has a supreme contempt for this sort of thing. It may add to chances for political preferment—but that fact does not lessen the contempt mere movements for sake of political expediency deserve.

The people will, as they usually do, see in the long run that Texas Farmer's position has been correct; that it has not been "off base." And Texas Farmer can always afford to wait for the "long run."—Texas Farmer. (Dem.)

### Newspaper Change.

Iowa Park, Wichita Co., Tex., Nov. 8.—The Iowa Park Texan has been sold by D. C. Kolp to J. R. Thomas, who recently moved here with his family from Clarendon. The new paper will likely be called the Iowa Park Jeffersonian and in politics will be out and out populist.

### Burat District Contracts.

Plano, Collin Co. Tex. Nov. 13.—The contract was let yesterday for the rebuilding of the Plano National bank building and the Odd Fellows' hall above, to cost $3475. Bowser & Skiles let the contract for three 2-story brick stores to cost about $6000.

### How Fared The People's Party?

The returns of the peple's party vote at the recent elections is coming in by freight. All of the express, telegraph and telephone lines being in the hands of plutocracy, which refuse to convey the news as to the vote of the people's party, the reform voters must depend upon the freight trains and stage coaches.

Plutocracy desires always to convey the idea that the people's party is dying—rapidly passing away—and hopes to forward that end by holding back the facts and ignores the people's party vote. Sufficient returns have been received, however, to show that the people's party vote in the states where the party possessed an organization has, as usual, been about doubled.

In Ohio the reports show that the populists polled about 100,000 votes. This is more than double the vote ever cast by the reformers in Ohio. In Nebraska there was a close race between the people's party candidate for judge and the republican candidate. The Nebraska populists claim to have doubled their vote this year. The people's vote of Iowa was greatly increased. The people's party carried a majority of the counties in Colorado and in Utah the people's party loomed up in reasonable proportion at the very first election, where statehood is an issue. In Boston, Mass., where we never had a ticket out before, more than 4000 reform votes were polled.

In Mississippi the people's party ticket gave the democrats a hard tussle, and gallant Burkitt ran close on the heels of the old party ticket. The result is highly satisfactory to the people's party. The Mercury will give the results as soon as they arrive by slow transportation.—Southern Mercury.

IF our free silver democratic friends will call at populist headquarters they can get authority to organize free silver clubs.

### Local Colored Methodist Pastor.

McKinney, Tex., Nov. 12th, '95.

I was appointed to give a synopsis of the C. M. E. church of the city of McKinney under the pastorate of S. Townsell, who has been our pastor for three years.

His conduct and preaching has been very satisfactory to the officers and membership. The moral standing of church has been raised to a higher standard. Peace and harmony has prevailed among the people generally and our Sunday school is in good condition. Also the Woman's missionary society is doing a grand work. In fact he has been successful in putting the whole church to work. We want him back again. The assessments have been met for the past three years. If we could only have his aid one more year we could carry out our aim in building a new church. We are justly satisfied with our pastor's work among our people in McKinney.

Cantrell is well known in this city. He talks very freely about his case, and especially to the officers. He looks to be about 23 or 24 years of age.

Both young ladies have become mothers.—Denton Monitor.

### Gaines Gets a Life Term.

Sherman, Tex., Nov. 13.—Last night the jury in the W. R. Gaines case was called into the courtroom by Judge Bliss and asked if they thought there was a likelihood of reaching a verdict, and they replied they thought not, and court was accordingly adjourned until 8.30 this morning. Before retiring last night the foreman of the jury asked if they could have a certain witness brought before them and were told they could.

To-day at 1:30 the jury notified the sheiff that they had reached a verdict and was taken into the court room, where they presented the following verdict:

"We the jury find defendant W. R. Gaines, guilty of murder in ths first degree and assess his punishment at confiinement in the state penitentiary for life."

The defendant made no demonstration and there was very little emotion traceable in his countenance. His attorneys will at once file a motion for a new trial.

### Attempt to Bribe Congressmen.

San Antonio, Tex., Nov. 13.—H. B. Martin, a local real estate broker, was arrested and jailed to-day on an indictment found by the United States grand jury charging him with having in August last attempted to bribe Congressmen Jos. D. Sayers, W. H. Crain and T. M. Paschal. The circumstances out of which the indictment grows are as follows: Martin was one of the promoters of the proposed Brownsville railroad, which was intended to be used as a line along the Rio Grande for the transportation of government troops and supplies. Martin wrote the three congressmen offering to divide with them certain commissions provided that they wonld assist in securing favorable legislaton by congress. Martin did not deny having written the letter making the proposition, but disavowed any wrong intent, saying it was the custom of brokers to offer such commission in the regular order of business.

Harold, son of Rev. and Mrs. D. N. Garvin, aged 3 years, died Thursday night, Nov. 7, after a weeks illness. His little body was put beneath the sod Friday evening. In his moral tillage God cultivates many flowers, seemingly only for their exquisite fragrance, for when bathed in soft sunshine, they have burst into blossom, then the divine hand gathers them from earthly fields, to be kept in chrystal vases in blessed mansions above. Thus little children die, some in the sweet bud, some in fuller bloom; but never too early to make heaven fairer and sweeter with their immortal bloom. The child's earthly ministry was well done, for the rose does its work as grandly in the blossom as in the vine with its fruit. And having helped to sanctify and lift heavenward the very hearts that broke at its farewell it has gone from this troublesome sphere ere the winds chilled or the rains stained it, leaving the world it blessed and the skies through which it passed still sweet with its lingering fragance, to its glory as an ever unfolding flower in the blessed home of God. "Beautiful and comforting thought! Death is not destruction! Death is not even decay! Death is harvesting! ### Add-Ran Letter.

Thorp Springs, Texas. Nov. 8. '95.

The all-absorbing topic of conversation is the removal of the University to the city of Waco. It has been stirring our community for several weeks and at present the problem does not seem to be solved. The suspense has been painful, both to citizens of the town, who make a living taking boarders, and the University folks. A proposition was made by a committee representing the citizens of Waco to the trustees of the university. It was accepted with the provision that Waco should raise a certain sum of money. This has not all been raised and we do know as to the success that shall crown the efforts of those in charge of the work. In the meantime the school is progressing nicely.

Thorp Springs is strictly an anti-progressive town in every respect except that of learning. Most of those who do attend the university are from afar. The buildings are cheap, the houses are old-fashioned and everything has a quiet, rural air. This is a splendid place for study and for spiritual advancement. There are seventeen in the Volunteer Mission Band. These young people have, after prayerful consideration, decided to do whatsoever Christ would have them do in home and foreign mission work. There are nearly forty in the Bible Department, preparing for mission work and for the ministry of the word.

Occasionally the McKinney boys who are here get together and talk about their town, "the best in the state," home folks, and the younger ones sometimes speak in a manner which would cause us to believe that they would like to see mother. Of course they are not homesick. (?)

The reading of The Democrat and Gazette is very much like getting a long letter from home.

Weak Coffee and Strong Butter.

We never buy either. Some Groceries are too cheap. Our "Guatamema" roasted coffee will please. What an aroma it possesses. How delicious! Economical, too, because a little of its wonderful goodness makes enough for the family. Try a pound of it at 30c. It cannot be beat for the money. Our Butter is strong in purity but not in taste. It will improve the flavor of inferior bread, so great is its power.

### Criminal Proceedings of the District Court.

Alex Mixon, who was being tried for burglary at the time of our last issue, was found guilty in the first case and sentenced to the penitentiary for two years.

In the second case he plead guilty and was sentenced for two year more.

Ed Pearce on a plea of guilty for forgery was sentenced to the penitentiary for two years.

Will Ross, a negro, was tried for burglary, the result being a hung jury.

Perhaps the most peculiar case was that of Wash Woolbright, who was charged with the murder of a man by the name of Ladd 10 miles east of McKinney, last spring, at a dance.

In the fight Ladd was stabbed with a knife from the effects of which he died. Tom Woolright, a younger brother of Wash Woolbright, came into court and swore that he himself did the killing. Tom was then tried for the offense and acquited by the jury which did not believe the evidence was strong enough against him although he acknowledged that he did the killing. Now the court reverts back to the case against Wash Woolbright and will endeavor to convict him of the charge with the testimony of the younger brother staring it in the face to the effect that he did the killing. It seems that the testimony is strong against Wash, yet Tom claims to be the fellow that caused the death of Ladd. Tom refused to plead guilty before Judge Dillard.

The case of Mary Cooper, a negro girl, charged with assault to murder a little child, was tried Tuesday evening. The jury returned a verdict of not guilty.

Bun Woods was tried Wednesday and convicted of burglarizing Douglas' store in Weston and sentenced to two years in the penitentiary.

Charlie Watts is now on trial, as The Democrat goes to press, on a charge of burglarizing Douglas' store in Weston He is defended by the ablest council of the local bar who are making strenuous efforts to clear their client,

Mr. and Mrs. Lem Oldham returned from a brief visit at Bonham to-day.

It will not cure everything It is not claimed that it will cure but one complaint, that is dyspepsia. We cannot say that it will cure every case of dyspepsia, but it will cure a large majority of them. Such cases as are adapted to its use will derive immediate benefit. One small bottle will be sufficient to test it.

The Shaker Digestive Cordial is especially adapted for emaciated or elderly people whose food does them but little or no good because is is not digested. A really palatable Castor Oil can now be had under the name of LAXOL.

PIMPLES, BLOTCHES AND OLD SORES CATARRH, MALARIA, KIDNEY TROUBLES and DYSPEPSIA

P. P. P. purifies the blood, builds up the weak and debilitated, gives strength to weakened nerves, expels diseases, giving the patient health and happiness where sickness, gloomy feelings and lassitude first prevailed.

For primary, secondary and tertiary syphilis, for blood poisoning, mercurial poison, malaria, dyspepsia, and in all blood and skin diseases, like blotches, pimples, old chronic ulcers, tetter, scald head, boils, erysipelas, eczema—we may say, without fear of contradiction, that P. P. P. is the best blood purifier in the world, and makes positive, speedy and permanent cures in all cases.

Ladies whose systems are poisoned and whose blood is in an impure condition, due to menstrual irregularities, are peculiarly benefited by the wonderful tonic and blood cleansing properties of P. P. P.—Prickly Ash, Poke Root and Potassium.

SPRINGFIELD, Mo., Aug. 14th, 1893. —I can speak in the highest terms of your medicine from my own personal knowledge. I was affected with heart disease, pleurisy and rheumatism for 35 years, was treated by the very best physicians and spent hundreds of dollars, tried every known remedy without finding relief. I have only taken one bottle of your P. P. P., and can cheerfully say it has done me more good than anything I have ever taken. I can recommend your medicine to all sufferers of the above diseases.

MRS. M. N. YEARY, Springfield, Green County, Mo.

Are entirely removed by P.P.P. —Prickly Ash, Poke Root and Potassium, the greatest blood purifier on earth.

ABERDEEN, O., July 21, 1891. MESSRS. LIPPMAN BROS., Savannah, Ga.: DEAR SIRS—I bought a bottle of your P. P. P. at Hot Springs, Ark., and it has done me more good than three months' treatment at the Hot Springs. Send three bottles C. O. D. Respectfully yours,

Capt. J. D. Johnston.

*To all whom it may concern:* I hereby testify to the wonderful properties of P. P. P. for eruptions of the skin. I suffered for several years with an unsightly and disagreeable eruption on my face. I tried every known remedy but in vain, until P. P. P. was used, and am now entirely cured.

SEQUIN, TEX., January 16, 1893. MESSRS. LIPPMAN BROS., Savannah, Ga.: *Gentlemen*—I have tried your P. P. I have taken five or six bottles and feel confident that another course will effect a cure. It has also relieved me from indigestion and stomach troubles. Yours truly,

## DEMOCRATS BADLY DEFEETED IN TUESDAY'S ELECTIONS.

**Mississippi and Virginia the Only States That Hold to Democratic Principles. Utah Goes Republican by a small Vote—Republican Gains In Several States Phenomenal.**

LOUISVILLE, Nov. 8.—Republican claims and Democratic concession show that not only has Kentucky elected the full Republican state ticket, but that the complexion of the legislature shows a Republican successor of Senator Blackburn.

Bradley's majority will be near 12,000.

CANDIDATES FOR GOVERNOR IN KENTUCKY.

Covington the vote on governor is, Hardin, 3,268; Bradley, 2,275; Hardin's plurality, 533. Covington also elected a Democratic mayor. Newport gave Bradley 500 majority and elected a Republican mayor.

The Republican headquarters claim the state by about 15,000 and the lower branch of the legislature by 5 or 6 votes.

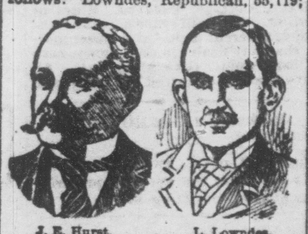
**Democrats and Republicans Each Can Muster Sixty-Nine Votes.**

LOUISVILLE, Nov. 9.—The Evening Post says the general assembly will be a tie in the election of a senator and successor to Blackburn is a matter of conjecture. The Democrats have 68 votes and 1 Democratic-Populist vote, making a total of 69. The Republicans have 68 and 1 Republican-Alliance, making 69. The Republicans claim Lieutenant Governor Worthington will have a decisive vote, insuring them the senatorship. This is an error, however, as the lieutenant governor, as presiding officer of the senate, cannot vote on joint ballot.

### HURST BEATEN BADLY.

**Lowndes Has a Majority For Governor of From 15,000 to 16,000.**

BALTIMORE, Nov. 7.—The city vote for governor is complete and stands as follows: Lowndes, Republican, 55,119;



J. E. Hurst. L. Lowndes.
CANDIDATES FOR GOVERNOR IN MARYLAND.

Hurst, Democrat, 43,327; Andrews, Populist and Socialist, 433.

For mayor—Hooper, Republican, 53,116; Williams, Democrat, 45,217.

Three Republican candidates for judges of the orphans' court received votes averaging 51,000, the Democratic candidates averaging 46,000.

In the First and Third legislative districts the Republicans elected a senator and six members of the house of delegates and six members of the house of delegates in the Second district.

In the first branch of the city council the Republicans will have a majority of 12, and in the second branch a majority of 44.

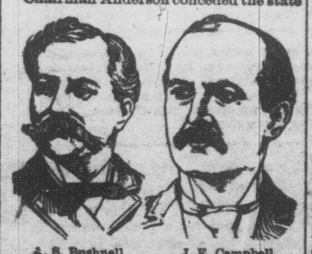
Incomplete returns from the state, including Baltimore city, indicate the election of Lowndes by at least 15,000 to 16,000 majority, carrying along with him the rest of the ticket.

House delegates will perhaps have more than 60 Republicans. The senate will be close, with chances in favor of the Republicans.

**The Result In Ohio.**

COLUMBUS, Nov. 8.—Neither the Republican nor Democratic state committees have attempted to get anything like exact figures on the election returns.

Chairman Anderson conceded the state



A. S. Bushnell. J. E. Campbell.
CANDIDATES FOR GOVERNOR IN OHIO.

to the Republicans by 90,000. Chairman Kurtz says Bushnell's plurality will not be less than 100,000. The vote for Coxey, Populist, will be about 15,000 less than last year's Populist vote of 40,000. The only consolation for the Populists is the election of W. F. Conley for state senator in the Twenty-second district.

The senate will stand: Republicans, 30; Democrats, 6; fusion-Populist, 1.

In the house of representatives: Republicans, 87; Democrats, 25.

The Republicans have a majority of 67 on joint ballot.

**The New York Vote.**

NEW YORK, Nov. 8.—The total vote unofficially compiled gives Palmer, Republican, for secretary of state, 579,525, while his Democratic opponent, King, polled 505,590, making the Republican plurality 66,935. Both branches of the state legislature will be Republican by a majority of more than 2 to 1.

Tammany's victory in the city is not greatly changed by the complete returns from the estimates. The head of the Tammany ticket, Puror, candidate for county clerk, has a majority of 16,489.

**Virginia Safe For the Democrats.**

RICHMOND, Nov. 8.—Returns from all over the state indicate that the Democrats elected their candidates in 15 out of the 20 senatorial districts and that the next senate will stand 34 Democrats and 6 opposition. The antidemocrats elect probably 24 of the 100 members of the new house.

DES MOINES, Nov. 8.—Iowa is Republican by from 60,000 to 70,000 plurality.

Drake, Republican, for governor, has gained 33,000 over the Jackson vote for governor in 1893.

The general assembly is overwhelmingly Republican, assuring the return of Senator Allison. On joint ballot the Republicans have 96 majority out of 150 votes.

**Everything Republican.**

JERSEY CITY, Nov. 8.—The magnitude of the Republican sweep in New Jersey did not become apparent until yesterday when the official returns were

A. T. McGill. J. W. Griggs.
CANDIDATES FOR GOVERNOR IN NEW JERSEY.

made public. The results in the counties, as filed, show that Griggs, Republican, received 26,900 plurality over McGill, Democrat, for governor. The election of Griggs is the first time in 30 years that the Republicans have elected a governor, and they are now in control of almost every department of the state government. The legislature is Republican on a joint ballot by 40 and one independent.

**A Clean Sweep.**

KANSAS CITY, Nov. 8.—Kansas returns show that the Republicans made practically a clean sweep of the state, carrying a majority of the counties entire and electing many of the officers of the others.

**Republicans Have a Majority.**

NEW YORK, Nov. 7.—A list of the new legislature, based upon corrected returns from nearly all election districts and careful estimates in others, shows the state senate will consist of 35 Republicans, 14 Democrats and 1 independent, and the assembly consists of 99 Republicans and 51 Democrats.

**Republican Majority.**

BOSTON, Nov. 7.—The question in Massachusetts from the first was of majority. Governor Greenhalge and the entire Republican ticket are elected by a plurality practically the same as that of 1894. The legislative department is

G. F. Williams. F. T. Greenhalge.
CANDIDATES FOR GOVERNOR IN MASSACHUSETTS.

overwhelmingly Republican, 33 of the 40 senators being Republicans. This is a slight gain for the Democratic party, the senate last year having stood 36 Republicans and 4 Democrats. In the house of representatives the Republicans have practically the same majority as last year, which was an overwhelming one. The governor's counsel will contain but one Democrat.

**Republicans In the Lead.**

DENVER, Nov. 7.—Party lines were not closely drawn in Colorado county elections, but the Republicans claim gains outside of Denver. In this (Arapahoe) county the election is very close, the result being still in doubt as to two officers. The Republicans probably hold all other offices.

**Big Democratic Majority.**

JACKSON, Miss., Nov. 7.—The indications are that not more than half the registered votes were polled. From reports received it is estimated that the Democratic majority will be from 35,000 to 50,000. The Populists did not receive more than 15 per cent of the total vote cast. In this city 349 votes were polled, being less than half the registered votes. Burkett, Populist, for governor, got 14 of this number and the remainder went to McLaurin, the Democratic candidate. The campaign just closed was on free silver as against the gold standard and the result is a complete victory for the free silverites.

### HOW THE SENATE STANDS.

**If the Republicans Get the Senator From Delaware They Will Control It.**

WASHINGTON, Nov. 8.—As a result of the latest election returns the Republicans gain 5 United States senators—2 from Utah and 1 each from Kentucky, Ohio and Maryland; and the Democrats lose 3 senators—1 each from Kentucky, Maryland and Ohio. None of these changes become effective, however, until March 4, 1897, except in the case of the two Utah senators, who will take their seats as soon as chosen.

After March 4, 1897, the numerical strength in the senate will be as follows: Republicans, 44; Democrats, 39; Populists, 6; vacant (Delaware), 1. If the Delaware vacancy is filled by a Republican it will give a Republican majority in the upper branch of congress.

**Democrats Lose Utah.**

SALT LAKE CITY, Nov. 8.—The Republicans have elected the Republican state ticket and carried the legislature by a safe majority. The Republican central state committee has received returns from 168 precincts covering portions of 28 counties and the most populous parts of the territory giving Allen, Republican, for congress, 16,363; Roberts, Democrat, 15,712, a majority of 651, which it is claimed will be increased to 1000.

**Mayor Pingree Reelected.**

DETROIT, Nov. 7.—Mayor Pingree is elected for his fourth term by upward of 10,000 plurality over Goldwater, Democrat. His majority is over 5000 greater than it was two years ago.

**Mayor of Brooklyn.**

BROOKLYN, Nov. 7.—Returns from 622 out of a total of 625 districts in this city, gave Wurster, Republican, for mayor, 76,882; Grant, Democrat, 74,625.

**Will Not Be a Candidate.**

LOUISVILLE, Nov. 9.—A dispatch from Danville says Hon. John W. Yerkes, chairman of the Republican state central committee, today announces he will not allow his name to be presented for United States senator.

### DISASTROUS WRECK.

**An Engine Blows Up In Pennsylvania Killing Four Persons**

NEWBURG, Nov. 11.—The boiler of a locomotive attached to a southbound freight train on the Lehigh and Hudson River railroad exploded yesterday at Lake station, near Warwick. Engineer Cooper, Conductor O'Neill and the head brakeman, James L. Stone.

Conductor Martin O'Neill and his head brakeman, James L. Stone of Phillipsburg, were in the cab when the train started from the junction with the engineer, William Cooper, of Phillipsburg and his fireman, Herbert Beetner, of Easton, Pa. The train of 30 cars had reached the top of the grade near the stone bridge, and as the train started down, cold water was doubtless run into the boiler. The heavy boiler went 50 feet into the air and fell 25 feet from the tracks, leaving the engine trucks uninjured.

Conductor O'Neill was crushed and mutilated almost beyond recognition, the train having passed over him.

Head Brakeman Stone hung unconscious on a barbedwire fence.

Engineer Cooper lay dead under the boiler.

All were nearly naked, parts of their clothing hanging in the trees near by.

Fireman Beetner was found walking along the track. He was dazed and said he remembered going through the air and found himself in a field 50 feet from the tracks. He soon relapsed into unconsciousness and was taken to Easton, where he died.

The boiler and tender were blown off the wheels and the train continued running for more than a mile after the explosion.
